RESOLUTION
ADOPTED: December 28, 2015

DULY CERTIFIED:
4B. APPROVE RESOLUTION FOR FY15 AUDIT REPORT GASB 68
NEW JERSEY INSTITUTE OF TECHNOLOGY

Impact Statement of GASB 68

Background: GASB 68 accounting and financial reporting requires that actuarially calculated pre- and post-retirement defined benefit net pension liabilities be reflected in the University’s annual financial statements.

At the September 17, 2015 meeting of the Board of Trustees, the pre-GASB 68 audited financial statements of the University for the fiscal years ended June 30, 2015 and 2014 were reviewed and accepted.

In a letter from the State of New Jersey, Office of the Secretary of Higher Education, dated November 13, 2015, it indicated “GASB 68 reporting requirements solely govern financial reporting. Therefore, the allocation of the liabilities does not result in any change to the longstanding annual State budget tradition (in place since at least 1986) whereby the State pays for institutional fringe costs with reimbursement for certain positions.”

On November 13, 2015, the State of New Jersey, Department of Treasury, Division of Pensions and Benefits, provided to the University its allocation of net pension liabilities in order to comply with GASB 68.

Impact on FY15:

- The University adopted GASB 68 effective July 1, 2014.
- GASB 68 does not result in any changes to the State’s budget practice of paying for the University’s pension costs.
- After receipt from the State of its net pension liabilities, the initially prepared FY 2015 financial statements were updated. The significant changes compared to June 30, 2014 audited financial statement amounts are as follows:
  - Statement of Net Position:
    - increase in net pension liability of $109.7 million
    - reduction of unrestricted net position of $109.4 million
  - Statement of Revenues, Expenses, and Changes in Net Position:
    - cumulative effect of change in accounting principle of $104.0 million
    - pension expense of $5.9 million
  - Statement of Cash Flows:
    - no impact

Impact on FY16 and beyond:

- It is anticipated that the State will annually provide to the University their actuarially calculated pre- and post-retirement defined benefit net pension liabilities, with an estimated annual increase of approximately $6.0 million.
- There is no projected impact to the Statement of Cash Flows.
- It is anticipated that GASB 68 will not result in any changes to the State’s budget practice of paying for the University’s pension costs.
Resolution to Accept FY2015 Audited Financial Statements

Whereas, at the September 17, 2015 meeting of the Board of Trustees, the audited financial statements of the University for the fiscal years ended June 30, 2015 and 2014, prior to the effect of the adoption of Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27, and GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68 (collectively, GASB 68), were accepted by the Board of Trustees; and

Whereas, on November 13, 2015, the State of New Jersey, Department of Pensions and Benefits, provided to the University its allocated share of net pension liabilities; and

Whereas, the independent certified public accounting firm of Grant Thornton has completed its audit of fiscal year 2015 financial statements of the University for the effect of the adoption of GASB 68; and

Whereas, the Audit and Finance Committee of the Board of Trustees has reviewed the financial statements and has discussed them with the external auditors and recommends acceptance of the audited financial statements,

Now Therefore Be It Resolved that the Board of Trustees accepts the audited financial statements for the University for the fiscal years ended June 30, 2015 and 2014.
