Explanation of IRS Form 1098-T

- The IRS Form 1098-T is an information form filed with the Internal Revenue Service.
- The IRS Form 1098-T that you received reports amounts billed to you for qualified tuition and related expenses, as well as other related information.
- You, or the person who may claim you as a dependent, may be able to take either the tuition and fees deduction or claim an education credit on Form 1040 or 1040A for the qualified tuition and related expenses that were actually paid during the calendar year.
- The Form 1098-T Supplemental Information that NJIT is providing can assist you and your tax preparer in completing your tax return.
- All information and assistance that NJIT can provide to you is contained in this notice.
- There is no IRS requirement that you must claim the tuition and fees deduction or an education credit. Claiming education tax benefits is a voluntary decision for those who may qualify.

Amounts Billed for Qualified Tuition and Related Expenses

Box 2 of Form 1098-T reports the qualified tuition and related expenses billed to you during the calendar year. Qualified tuition and related expenses are sometimes referred to as qualified education expenses, although the terms are not always interchangeable. For purposes of the Form 1098-T provided by NJIT, the following categories of charges are included or not included in qualified tuition and related expenses:

Qualified Tuition and Related Expense:

Included:

- Resident and Non-Resident Tuition
- University Fees

Examples of some fees that are not included:

- Late fees, Parking charges, ID replacement fee, Maintaining Registration fees, Application Fees, Commencement Fees, Health Services Fees, Health Insurance Premium, Room and Board, Books and Equipment, Processing Fees
NJIT is choosing to report qualified tuition and related expenses that were billed during the calendar year, rather than the amount that was paid. In general, qualified tuition and related expenses are considered to be billed when you register for classes. The billed amount of tuition and fees reported in box 2 is reduced by the following deductions:

**Qualified Tuition and Related Expenses Reduced by:**

- Current year reductions in billed amounts for semesters billed during the calendar year. For example, a reduction due to withdrawal from classes. The reductions may or may not have resulted in a refund, depending on whether the billed amounts had been paid prior to the reduction.

- Tuition charges waived during the calendar year due to the student's status as a benefits eligible NJIT faculty or staff member or the spouse or dependent of an NJIT faculty or staff member.

- Tuition charges waived during the calendar year due to the student's status as an eligible research or teaching assistant/associate.

- Payments received and applied to tuition charges from third party sponsors.

The amount shown in box 2 for qualified tuition and related expenses billed during the calendar year may represent an amount that is different from the amount actually paid during the calendar year, although for many students the amounts will be the same. Under section 25A of the Internal Revenue Code and the associated regulations, a taxpayer may take a tuition and fee deduction or claim an education tax credit only with respect to qualified tuition and related expenses actually paid during the calendar year. You may not be able to take tuition and fee deduction or claim an education credit with respect to the entire amount billed and reported in box 2.

**Adjustments made for a Prior Year**

Box 4 of Form 1098-T reports adjustments made to qualified tuition and related expenses reported on a prior year Form 1098-T in Box 2. The amount reported in Box 4 represents a reduction in tuition billed during a prior calendar year. For example, if you were billed for Spring semester classes in December and withdrew from classes in January, Box 4 reports the decrease in billed tuition due to the withdrawal. The amount reported in Box 4 for adjustments to qualified tuition and related expenses may reduce any allowable education credit you may claim for the prior year. See IRS Form 8863 or IRS Publication 970 for more information.

**Scholarships or Grants**

Box 5 of Form 1098-T reports the total of scholarships or grants administered and processed by the NJIT Financial Aid Office during the calendar year. The amount reported in Box 5 does not include:
Excluded from Scholarships or Grants:

- Tuition waivers provided during the calendar year due to the student’s status as a benefits eligible NJIT faculty or staff member or the spouse or dependent of an NJIT faculty or staff member.
- Tuition waivers provided during the calendar year due to the student’s status as an eligible research or teaching assistant/associate.
- Student loans, for example subsidized, unsubsidized, PLUS, Perkins, and alternative loans.
- Work-study.
- Scholarships, grants, reimbursements, or other types of sponsorships not administered or processed by NJIT Financial Aid office.

The amount of any scholarships or grants reported for the calendar year and other similar amounts not reported (because they are not administered and processed by NJIT) may reduce the amount of any allowable tuition and fee deduction or education credit that you are entitled to.

Adjustments to Scholarships or Grants for a Prior Year

Box 6 of Form 1098-T reports adjustments made to scholarships or grants reported on a prior year Form 1098-T in Box 5. The amount reported in Box 6 represents a reduction in scholarships or grants reported for a prior calendar year. The amount reported in Box 6 for adjustments to scholarships or grants may affect the amount of any allowable tuition and fees deduction or education credit you may claim for the prior year. See IRS Form 8863 for how to report these amounts.

Additional Information Reported

There are three additional information boxes that may have a check mark in them.

Box 7 indicates if checked, that Box 2 includes amounts for an academic period beginning in the next calendar year. For example, if you registered for the upcoming Spring semester during November or December, this box will be marked.

Box 8 shows whether you are considered to be carrying at least one-half the normal full-time workload for your course of study at NJIT for at least one academic period during the calendar year. If this box is marked, you meet one of the requirements for the Hope tax credit. You do not have to meet the workload requirement to qualify for the tuition and fee deduction or the lifetime learning credit.
Box 9 shows whether you are considered to be enrolled in a program leading to a graduate degree, graduate-level certificate, or other recognized graduate-level educational credential. If you are enrolled in a graduate program, you are not eligible for the American Opportunity credit, but you may qualify for the tuition and fee deduction or the lifetime learning credit.

If your 1098-T is Incorrect
The Social Security Number and address on Form 1098-T were obtained from information provided to NJIT, although the address shown on Form 1098-T is irrelevant for IRS income tax filing purposes. The single most important information on the form is your Social Security Number. Your Social Security Number must be correct. If you need to make a correction to your SSN please go to the Registrar’s website http://www.njit.edu/registrar/forms/index.php and complete the form to change your SSN.
