Dear resident,

You requested access to the summer housing application due to summer course registration, travel concerns related to COVID-19, or other extenuating circumstances. The following plan including rate information was created in collaboration with university administration including the Dean of Students Office.

Before you submit a summer housing application, please review the following information specific to summer 2020:

• All applicants are required to accept a summer meal plan along with housing accommodations. There will be no exceptions to this requirement. Gourmet Dining will maintain its current process of supplying Grab-and-Go meals twice daily, seven days a week, throughout the summer term. No other dining entity is currently scheduled to be open on-campus this summer.

• Applicants who do not demonstrate Fall 2020 course registration are required to fully vacate the residence hall no later than July 31, 2020. No exceptions.

• Summer housing is located in the Honors Hall. To support community distancing practices, students will not receive roommates however two students will share one bathroom. Students are charged the standard double room with a shared bathroom rate although it will serve as a single with a shared bath.

• As with the current term, summer residents will have access only to the Honors Hall. Guest privileges remain suspended through summer 2020 as well to reduce risk.

• Students experiencing challenges returning home due to travel bans are asked to apply for the Full Summer term. These students can email reslife@njit.edu when a move-out date is identified. Once the student moves out, they will obtain a credit to their student account for the remainder off the Full Summer term.
