**Do I need to submit a physical exam?**

While regular preventive care and health maintenance visits with your healthcare provider are recommended, a full physical exam is not required. Immunization forms are required. We do recommend that if you have a chronic health problem, bring a copy of your medical records to the NJIT Student Health Services. After enrollment, it is also a good idea for those students with chronic health problems to schedule a visit with a physician at NJIT Student Health Services at Saint Michael's Primary and Specialty Care Center.
